REPUBLICAN NOMINATION.

FOR MAYOR WILLIAM H. CRANSTON.

If Congress wants to do anything decidedly creditable to its own reputation, and of paramount and permanent value to the country, it will cease its efforts for the extennios of the curse of slavery ; put an instant and effectual cleck upon the profigate waste of the people's money upon the army, navy, and worthless partisan printers; and act about a wise and judicious authorizetion of the construction of the Pacific

It ailroad, without further delay-It is about ten years since the gold de velopments in California began, to any extent, to attract'the attention of our countrymen and of the world; and for the greater part of that time it has been suffiacross the continent is one of the greatest material wants of the American people,

The subject has been extensively canvassed by the public press, by public lerturers, and by Congressional orators and reports. There is no lack of light upon it. There is no room for any reasonable doubt no to the propriety, policy and necessity of and a work. There can be no question of its vast utility, both in a civil and military Lunt of view. There is every reason to believe it would bring a vast and most desiruble current of trade from the Pacitle to the States and cities of the Atlantic coast : and that in case of war in the Western world, it might be of incalculable service to the republic.

But time rolls on, and we have, as yet been able to get no efficient action on the subject at Washington. The Iron Boad to the Pacific, had it been vigorously conmenced, as it should have been, five years ago, might have been by this time hulf complated. It is true, two or three surveys have been made, as to the various and rival routes that have been suggested, and so me hundreds of thousands of dollars' expended, and being still expended, for the printing of a report of the surveys aforesaid. But this is not what the People want. I is the reverse of what they want-and a wretched apology for the gross negt leet and recreancy of Congress on this subject. What the people want, in the premises, is decided and vigorous action-and they want that action now, without any turther palayer or delay.

But where abould the Pacific Railroad run? What route shall be selected?-There ought to be no great difficulty in an awering such a question; and yet, upon that very point, the trouddlers and quitters and nebodies in Congress are exhausting all their ingenuity, to hinder and baffle the construction of the road, unless it can be located away down opposite the Gulf of Mexico, clear out of the way of all the population, enterprise, and bosiness of the

The Mississippi or Eastern starting poin Union. of the road should not be an inch south of the city of St. Louis, Any man, who ever sair a map of the United States, knows that ___and Congress should so decide at once A yast preponderance of the wealth, papu Hation, product and industry of this Union, Lies north of that line. Ou this point, there Is no room for kloubt. The valley of the Platte River, forming by all odds the levelest and most desirable route for the Great Railtoad from the Missouri to the Rocks 'Mountain's, tends northwesterly from that city. And the South Pass of that lofty chain is comiderably north of the St. Louis parallel. Under these circumstances, no dozen representatives. location of the Pacific Railroad south of that city ought to be for one moment tolerated:

P. S. Since writing the above, we see that the Senate has, on motion of Mr. Benjamin of Louisana, decided to "postpope the further consideration of the subject till www.ember." This is not surprising; but it a appraint that Senerors Cinck and Hale c. No Ha Collaner of Ya, Wade of Ohio " Will on of Mass, " and have voted in Are of Mr. Be jamin's motion. The vote was 25 to 22. Messrs. Douglas and Seward opposed the postponement, the former speaking strongly against it.

The twaddlers in Congress, who have harize of the Pacific Railroad project, are proposing three or four branch roads from the Northern and Southern parts of the Union, to unite in one grand track some where westward of the Gulf of Mexico! No such project is needed. The line people of the Atlantic States have already got their railroad completed from the sea-coast to the Mississippi,-and the dead ones don't need What is now needed-and all that is needed-is one grand, strong, permanent iron road, to run Westwardly to the Pacific from St. Louis.

St. Paul is remarkably well supplied with banking-houses. The Times chronicles the opening of the thirteenth.

Council helden April 19, 1858. The follewing memorial was read, received and referred to the Committee on Finance, to report at the next meeting of this Council and in the meantime the same to be published: To the Hon. City Council of the City of Newport:-

The Public School Committee respectfully represent that reveral years past it has been increasingly evident to all who have had the care of the Public Schools of Newport, that the School accommodations are inadequate to the wants of the large numher of Scholars, for whom public instruction is demanded; and that in several instances the buildings now occupied for school pur-poses are not suitable, being small and ill poses are not suitable, being small and in-furnished, with o proper provision for ven-tilation or play grounds; so that the schools in those places, crowded as they are with pupils, must necessarily impair the health of the children by the impure amosphere they are compelled to breath and the lack of such exercise as is necessary for the tney are competited to order it and the tack of such exercise as is necessary for the development of the youthful frame. By such means the Public Schools, pre-eminently calculated for the Public good, are ly calculated for the Public good, are rendered postively injurious to the public health and send out into the community a heatth and send out into the community a race of feeble youths to propagate the seeds of disease, one of the schools in particular, in which the city ought to take especial interest and pride a school under the charge of an eminently devoted and accomplished. Teacher. The boys senior Department is ent up in circumstances equally unjust to pent up in circumstances equally unjust to the Teacher, the pupils and the community. The pressure on the part of the Primary School (which ought to be held of primary importance, though the cantrary has too generally been the case) is equally strong and crying for room, we awe it to our chil-tren, we owe it to the coming generation to dren, we owe it to the coming generation to make a special effort to relieve the pressure, make a special enter to the area annually pay-moreover the committee are annually pay-ming for the rent of three places, the interest of \$3,300, and to them beyond all other School rooms in the city the foregoing remarks are applicable. With these lacts before them the committee have discussed at their meetings for several months past, the ur-gent demand for immediate action for their relief from the embarasaments which are renet from the emorrasments which are pressing on them in regard to sufficient and appropriate school room; and at their last meeting it was resolved to adapt this form of memorial to your honorable body and to ask that you will grant them authority to erect or purchase a suitable building or buildings with proper grounds, to meet the

The Rejected Votes. The 10th section of the Article 8th, of the Constitution of Rhode Island ordeins that "In all elections, held by the peciple under this Constitution, a majority of all the Electors voting shall be necessary to the election of the persons roted for."

How then is it possible that a member can be returned to our General Assembly by a minority vote? The most that can be done by any tribunal holding power under the Constitution of this State-is to set aside an election for informality, where the requirements of the law have not been strictly conformed to, in all cases where the member claimed to be elected does not revoive a majority of all the electors voting. The numbering of the names of the representatives is merely a matter of form that the law makes alike applicable to every town in the State whether it send one or a | Canal loan bill for \$3,800,000 has been de-

And yet who would dream of the General Assembly giving a scat within its body to a member from Mid tletown who received but five votes in preference to another person who received a hundred, merely because the former had a figure 1 before his name-which the latter had not,-and yet the law requires that the names shall be numbered in all cases. The complicated laws of this lawyer ridden little State requires that "each yoter shall at the time of viting announce to the moderator or warden his name."How many votes would have been rejected at the late election if the requirements of this law was to be literally carried out. But says Mr. Expediency-it is not necessary-in either of the cases you have adduced, for where there is but one representative, no one can doubt of the intention of the elector, though the name of the representative be not numbered .--and again when the nerson voting is known to the moderator there is no need of his announcing his result name. True but does not the law as imperatively to pilre it, in the one case as in the other, and does any one doubt the intration of the electors as regards the persons and positions of the

Aldermen of the city of Newport. That there was gross frond perpetrated in the intention of many persons, who voted for tickets, that were counted—J

candidates voted for on the unnumbered

tickets rejected by the Mayor and Board of

think there can be no doubt if a tythe of what is alledged is true-but I doubt if a single instance of the kind occurred in any

case among the rejected voters.

While we profess to be a law seed onder community—it is doubtless best to shide by may be and by whatever singler influences thes may have been palmed upon its. That sure I am that so long as the Constitution of the Elate is regarded in the leastno member can be returned to the General Assembly unless he has received "a major. ity of all the Electors voting" for him or his competitors for the sams office whether their names be numbered or not.

Mr. Editor,-Among the late arrivals here, as you will have seen by telegraph, one of the most undesirable has been a cargo of yellow fever per U. S. steamship Susquehannah, from Greytown, Nicatagua. She had 165 cases on board, lost 17 by death, left 63 in the hospital at Port Royal, Jamaica, and has sent 21 to the Quarantine since her arrival. The ship has been of course detained at the quarantine ground, and every precaution (I hope) taken for its horough cleansing, and for preventing all thances of contact with the city or the main land by which the dreadful scourge might

Yet I think some of our daily journals make too light of the danger.

Ex-Mayor Wood's Irish Police, who stood out quite as rebelliously as His Honor against the new Metropolitan organizations, but who were finally discharged by Wood, upon the decision of the Court of Appeals against him, on the 3d of July last, have been in high feather of late, in the hope of a favorable decision by the same Court as to their claim of being still policemen and entitled to pay as such for the past year, on the ground of no proper legal discharge by the Police Commissionera.

This not very modest claim was lately sustained by the Supreme Court; but the Court of Appeals, after a hearing, proved to be equally divided-1 of the Judges lor, and 4 against the impudent demand. A rebearing has been consequently ordered. A good share of these " Dead Rabbit" policemen are much better entitled to a term at Blackwell's island or Sing Sing, than to any sort of countenance in this swindling operation. But we have very queer laws, and quite as queer legal expositors, now-a days. The current of trade flows on moderately but healthfully. The city is full of afrangers, from all quarters. More cash and less credit, is the maxim with business men of

The new Croton Reservoir, so long talkadof, is at last begun, by Messra. Walker, Fairchild & Co., who have the contract for the whole job, at \$632,433. The reservoir will extend northwardly from 86th to 96th street-westward from the 5th to the 8th Avenue-and will comprise 106 acres. Its depth is to be 36 feet, and its capacity 32 millions of barrels. One thousand laborers are to be forthwith employed in its construction, and a second thousand speedily. The work is to be completed in three years. It is supposed that this reservoir will furnish a supply of water for the city adequate to all emergencies.

The hundred days' constitutional limit of our State Liegislature-pay limit-expired on Thursday; but the members having fooled away three weeks in refusing to choose a Speaker, at the outset, haven't got their work done yet-so they hold over at | their own charges. TERROUND INFORMATION NOTICE.

TERROUND INFORMATION OF Whom they order Lottery Ticheste in Certification of Packages of Tickets. The sountry is Rooted with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in thems. Capital Prices of from gain, 000 to 910, 1000 head their schemes—with tickets at One Dollyr, 1000,000 Capital Prizes are offered, tickets 53. All such, in very instance, are frauda; and if money is sent to them for rickets, it is so much thrown away without; the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unaccally large in comparison to the price of fickets. In every instance where large offered for small cost of tickets, put it down as a certain fraud.

fit Managers of Maryland State Lotteries.

LAPTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity of investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for zickets to Occepia, as the lotteries of Samuel Swan & Co., are authorized by the Legislative of that State. A lottery will be drawn every saturday throughout the year, all orders received being filled in the drawing mext to take place after the same combi to hand. According to the scheme one cicket in everyten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number of each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mistify the buyer. Prizes yary, from \$40 to \$60,000; overy prize being drawin and result of drawing forwarded to all purchasers.

A. A list of the numbers that are drawn from the wheel, with the amonat of the prize that each one is entitled to, will be published after every drawing, in the following parpers:—Augusta (Occ.)
